WOLTER
PHARMACEUTICAL

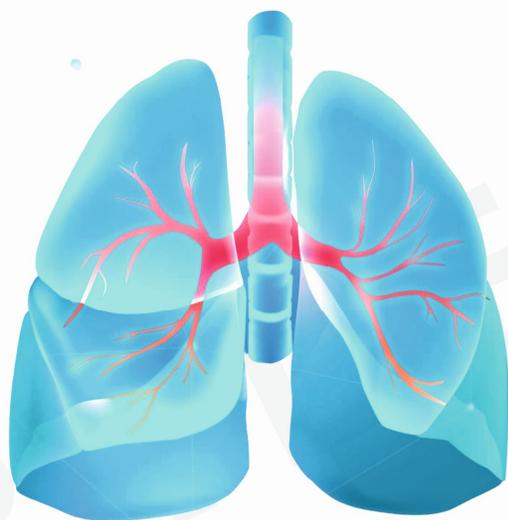

Precision in Purpose.

Purity in Action. Progress Every Day

Third Generation Cephalosporin **Effective Against Gram -ve**

PodClavix

Cefpodoxime 200mg + Clavulanic Acid 125mg **Tablets**

**Expanded features for
expected results...**

Cefpodoxime

- Inhibits bacterial cell wall synthesis
- Effective against Gram-positive & Gram-negative bacteria

Clavulanic Acid

- Inhibits β -lactamase enzymes
- Restores activity of cefpodoxime against resistant strains

Indications

- Chronic bronchitis
- Pharyngitis
- Tonsillitis
- Skin infections
- Acute sinusitis
- Urinary tract infections
- Community-acquired bronchopneumonia

The Rational Approach **in Liver Diseases**

URSOVIAX

Ursodeoxycholic Acid 300 mg Tablets

Trusted **Power** to Improve
Liver Function

Prevents & Treat Liver Diseases

- Prevent & reverse alcohol induced damage.
- Normalises liver function tests.
- Prevents TNF receptor activation & apoptosis.
- Decreases serum biochemical indices.
AST, ALT, GGT & AP parameters.
- Improves appetite.

Cholelithiasis

Alcoholic fatty Liver Disease

Primary Biliary Cirrhosis

Alcoholic fatty Liver Disease

Primary Sclerosing Cholangitis

Dual Action, Faster Cure – Broad-Spectrum Infection Fighter

Cefiwol-0

Cefixime Trihydrate 200mg + Ofloxacin 200mg Tablets

Cefixime (Third-Generation Cephalosporin)

- Inhibits bacterial cell wall synthesis, leading to bacterial death.
- Active against Gram-positive & Gram-negative bacteria.

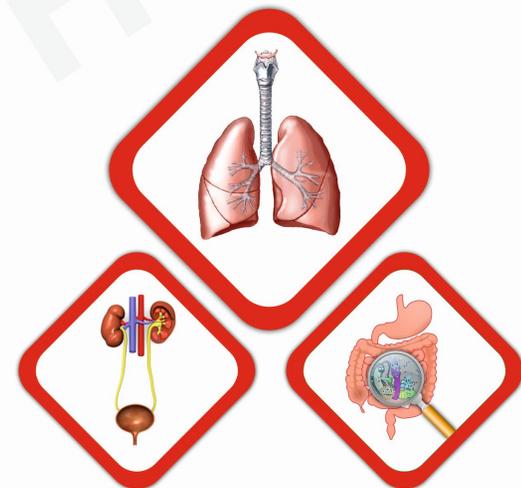

Ofloxacin (Fluoroquinolone Antibiotic)

- Inhibits DNA gyrase & topoisomerase IV, preventing bacterial replication.
- Potent against multidrug-resistant bacterial strains.

Broad-Spectrum Action Against RTI, UTI and GI Infections

Synergistic Effect for Faster Recovery

Effective Against Resistant Bacterial Strains

- **Respiratory Tract Infection**
- **Urinary Tract Infection**
- **SSTIs**
- **Gynaecological Infections**

Be Tough on Resistant Pathogenic Bacteria with...

WOXY CV

Amoxicillin 500mg + Potassium Clavulanic Acid 125mg **Tablets**

- Good activity against common pathogens like pneumonia & beta-lactamase producing strains of H influenzae and M. catarrhails.
 - Combined to restore the potency of amoxicillin against strains producing Beta-lactamases
- Excellent tolerance & 88.4% clinical cure rate in patients
- with respiratory or other serious bacterial infection.
 - Decreases risk of infection after third molar extraction than amoxicillin alone.

INDICATIONS

Otitis Media

Acute Tonsilitis

Bone & Joint Infections

Gynaecological Infections

Post Surgical Infections

A Broad Spectrum Antibiotic...

Winner Performance Against Powerful Infections...

MAXSOL Inj

Ceftriaxone 1000mg Injections

MAXSOL SB Inj

Ceftriaxone 1000mg + Sulbactam 500mg Injections

Ceftriaxone

- Inhibits bacterial cell wall synthesis
- Bactericidal against Gram-positive and Gram-negative organisms
- Stable against many beta-lactamases

Ceftriaxone

- Broad Spectrum Antibiotic With High Clinical Efficacy And Good Toleration Profile.
- It Is Exclusively Excreted In Bite So No Dose Adjustment Is Required In Renal In Sufficiency.

Respiratory tract infections

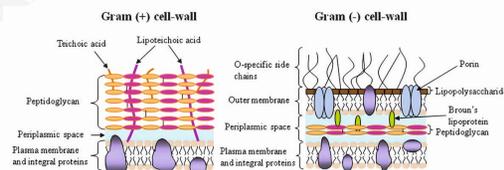

Urinary tract infections

IN

Skin and soft tissue infections

Intra-abdominal infections

Septicemia and meningitis

Sulbactam

- Useful inn treating aspirationn pneumonia for their activity against anaerobes.
- The most powerful beta lactamasae inhibitor.

UTI

Endocarditis

IN

Nosocomial Infecitons

RTI

A timely answer to **serious infections**,

WOMIKA inj

Amikacin 500mg Injections

Assures Dependable Response
For Clinical success...

- ◆ Widest spectrum among aminoglycosides.
- ◆ Resistant to bacterial aminoglycosides inactivating enzymes.
- ◆ Active against gentamicin resistant infection like:
Nosocomial infections, Recurrent Urinary Tract infections. Abdominal infections & buns.
- ◆ Helps initial treatment of severe lower Respiratory Tract infections.
- ◆ Check infections in immuno-compromised patients.

In

- ◆ Meningitis / Peritonitis / Bacterial Septicemia
- ◆ Bone & Joint Infections
- ◆ Recurrent Urinary Tract Infections

Digestive Harmony
Esomeprazole & Domperidone Duo

WOLZOL-DSR

Esomeprazole 40mg + Domperidone 30mg **Capsules**

Esomeprazole

- Demonstrates better esophagitis healing rate in patients with GERD than omeprazole
- More effective than omeprazole, lansoprazole, and pantoprazole for the rapid relief of heartburn symptoms and acid reflux symptoms in patients with reflux esophagitis.

Domperidone

- Provides an excellent safety profile for long-term administration Has potential to negate dopaminergic effect and thereby prevents subsequent GI symptoms.

IN

- Hyperacidity
- Gastritis
- Dyspepsia
- GERD
- Acid Peptic Ulcers
- Reflux esophagitis

Resolve Acidity & Reflux...

PANWOL-40

Pantoprazole 40mg IV **Injection**

- Most Effective In Preventing Stress Ulcers Or Those Deep, Focal Lesions.
- Superior Anti Secretory Activity Than Omeprazole.
- Longer Duration of Action Than Omeprazole, Lansoprazole & Rabeprazole.

Omeprazole - 82% Acid Inhibition

Lansoprazole - 70% Acid Inhibition

Rabeprazole - 88% Acid Inhibition

- No Interference with Excretion of Other Drug.

Gastric Ulcers

Duodenal Ulcers

Reflux Oesophagitis

Hyperacidity

Integral part in H. Pylori regimen

In Pain, Inflammation & Swelling

Rx

WOLPEP ACE

Serratiopeptidase 15mg + Aceclofenac 100mg + Paracetamol 325mg + **Tablet**

Aceclofenac

- ◆ Superior tolerability & safety low GI irritation.
- ◆ Offers faster & prolonged relief

Paracetamol

- ◆ Analgesic & Antipyretic effect
- ◆ Rapidly & completely absorbed from GI tract

Rheumatoid & Osteoarthritis

Sports Injury

Ankylosing Spondylitis

ENT Inflammation

Post Operative Pain

Dental Inflammation

Power Recovery from Powerful Combination

**With 7 benefits
of Serratiopeptidase**

A Centrally Acting Muscle Relaxant...

DICLODOL

Diclofenac Sodium 75mg **Injection**

Diclofenac Sodium

- Proven & commonly prescribed NSAIDs.
- Effectively Treats variety of acute and chronic pain and inflammatory conditions

Management of Acute Painful

Muscle Spasm & Low Back Pain

Right way to Manage PAIN

For Fast & Safe Antispasmodic Effects...

Wrotin-A

Drotaverine 80mg + Aceclofenac 100mg **Tablets**

Drotaverine HCL

- Drotaverine Hydrochloride provides direct, specific & fast action on smooth muscles.

Aceclofenac

- Aceclofenac has superior analgesic in the treatment of moderate to severe acute pain with rapid onset

9u

- Renal Colic
- Abdominal Pain
- Spasmodic Dysmenorrhoea
- Intestinal Colic
- Urinary Tract Spasm
- Dysmenorrhoea
- Menstrual Cramps
- Hysteroscopy

In Acute Migraine

Naxwol-D

Naproxen 500mg + Domperidone 10mg Tablets

Strong pain relief with gastric protection

Naproxen

- Inhibits prostaglandin synthesis via COX enzyme blockade
- Reduces pain, inflammation & stiffness

Naproxen

- Blocks peripheral dopamine receptors
- Enhances gastric emptying & reduces nausea

Indication

Low back pain

Osteoarthritis

Post-operative pain

Rheumatoid arthritis

Dysmenorrhea

Ankylosing spondylitis

Trusted Relief, Gentle on Children

FLEXIMOL-100

Paracetamol Infusion 1000 mg/100 ml

Fast fever control with assured safety

- Acts on the central nervous system
- Inhibits prostaglandin synthesis via COX enzyme blockade
- Provides analgesic effect by elevating pain threshold
- Produces antipyretic effect by action on hypothalamic heat-regulating center
- Rapid onset due to intravenous delivery → faster relief

Indication

Post-operative pain & fever

Musculoskeletal pain

Acute high-grade fever

Dental pain

Headache, migraine

Adjunct in moderate-to-severe pain

Paracetamol – Safe. Effective. Reliable

In Iron Deficiency Anemia...

FEWOLT Syrup

Ferrous Ascorbate eq. to Ele. Iron 100mg + Folic Acid 1.5mg + Zinc 4mg Tablet

Ferrous Ascorbate

- Rapidly absorbed than carbonyl **IRON**, hence has more bioavailability than carbonyl iron
- Relative Bioavailability of Ferrous ascorbate is higher 56% as compared to carbonyl iron varied from 20 to 25%

Folic Acid

- Reduces the neural tube defects prevalence by 50% to 70%
- Lowers the risk of congenital heart defects, cleft palate limb defects and urinary tract anomalies

Zinc

- Protect Body cells from the potential damage caused by free radicals.

9a

Anaemia Due to Blood Loss

Iron Deficiency Anaemia

Pregnancy And Lactation

Piles & Surgery

Powerful antioxidant & complete nutritional support

Wolvita

Tablets

Lycopene with essential vitamins & minerals for total wellness

- Lycopene & Vitamin C/E act as strong antioxidants, reduce oxidative stress
- B-complex vitamins boost energy metabolism & nervous system health
- Vitamin A & Folic Acid support vision & cell growth
- Zinc, Selenium, Copper & Manganese enhance immunity & enzymatic activity

Indications

Chronic fatigue & weakness

Immunity deficiency states

Nutritional supplementation

Oxidative stress-related conditions

Complete antioxidant & multivitamin care for daily health

Vitality, Energy & Everyday Wellness

WOLVITA PLUS M

Softgel Capsule

Multi-Vitamins, Multi-Minerals

Ginseng with essential vitamins for strength & stamina

- Ginseng boosts energy, reduces fatigue & enhances performance
- Vitamins support metabolism, nerve function & immunity
- Antioxidants (Vit C & E) protect against oxidative stress
- Vitamin D3 & Folic Acid improve bone & blood health

Indications

Fatigue & stress

Low stamina & debility

Nutritional deficiencies

Immunity support

Complete vitality support for active living

D ONN D3

Cholecalciferol 60,000 IU (Vitamin D3) Softgel Capsule

Calcium Citrate

- ❖ Beneficial in Osteoporosis, Hypocalcemia & Post Menopausal disorders
- ❖ Promotes bone mineral density.
- ❖ Minimizes bone loss in old age & women following menopause.
- ❖ Does not cause bloating and constipation

Vitamin D3

- ❖ Increases Calcium absorption and enhances Bone building process
- ❖ Regulates the Calcium & Phosphorus levels in the blood by promoting their absorption from food in intestine and reabsorption from kidney

Senile Osteoporosis

Drug Induced Osteoporosis

Post Menopausal Osteoporosis

Full Calcium for Every Stage of Life...

Accelerates Food Absorption

WOLZYME

Syrup
200ml

Indication:

- ◆ Indigestion
- ◆ Gas or Flatulence
- ◆ Nausea
- ◆ Loss of Appetite
- ◆ Belching
- ◆ Post Gastrointestinal Surgery

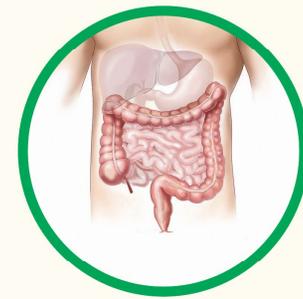

◆ Energy Value 18 Kcal

◆ Carbohydrates 4.50 gm

◆ Sucrose 4.50 gm

Fungal Diastase & Pepsin Syrup

- ➔ Acts over a wide range of pH and helps to digest carbohydrates
- ➔ Ensures better absorption & assimilation of food
- ➔ Enhances appetite, promotes good health
- ➔ Beneficial for dyspeptic symptoms
- ➔ Promotes the expulsion of gases from GUT

In Allergic Rhinitis and Urticaria

BILOTER 20

Bilastine 20mg **Tablets**

No More Itching
No More Worries

Bilastine

- » A Selective Non-Sedating H1 Antihistamine
- » Blocks histamine receptors, reducing allergic reactions.

Flawless Skin, Allergy-Free Life
The Dermatologist's Choice

Osteoarthritis

Post-operative Pain

Rheumatoid Arthritis

Musculoskeletal Disorders

Spondylitis

In Allergic Rhinitis and Asthma

BILOTER M

Bilastine 20mg + Montelukast 10mg **Tablets**

No More Sneezing
No More Wheezing

Bilastine

- » A modern, non-sedating antihistamine that blocks H1 receptors to relieve allergic symptoms

Montelukast

- » A leukotriene receptor antagonist that reduces inflammation & bronchoconstriction.

In

Seasonal & Perennial Rhinitis

Respiratory Allergies

Asthma

Seasonal Allergies

To Achieve Target HbA1C Levels

WOLMETT TRIO-1

Glimepiride 1mg + Metformin 500mg + Pioglitazone 15mg Tablets

Intensive Treatment Regimen for Uncontrolled Diabetes

Glimepiride + Metformin + Voglibose

THERAPY FOR COMPREHENSIVE GLYCEMIC CONTROL

The Triple agent therapy targeting both FPG and PPG

- Reduced PPG
- Reduced CV Risks
- Reduced FPG
- Least Adverse effects
- Improved Glycemic Control
- Excellent Safety Profile

Important to Reduce FPG and PPG for Indians as they have elevated PPG levels

Better Compliance, Convenience

Lower Cost burdens than individual therapies

Plus Power for Sure Diabetic Control

WOLMETT TRIO **2**

Glimepiride 2 mg + Metformin 500mg + Pioglitazone 15 mg Tablets

Glimepiride

- ▶ Stimulates the insulin release
- Inhibits gluconeogenesis

Metformin

- ▶ Decreases hepatic glucose output
- Increase glucose utilization

Pioglitazone

- ▶ Acts primarily by decreasing insulin resistance

Targets simultaneously the three main metabolic abnormalities of type 2 diabetes

*End the viscous cycle
of emesis...*

*Superior in Nausea &
Emetic conditions*

EMIWOL 4

Ondansetron 2mg IV Inj

- It's a strong serotonin 5-HT₃ receptor antagonist
- Considered currently as antiemetic 'GOLD' standard for chemotherapy & radiotherapy induced nausea & Vomiting.

INDICATIONS

- Gastroenteritis
- Morning Sickness
- Migraine
- Cyclic Vomiting Syndrome
- Post-Operative Nausea & Vomiting

Terminate Loss of Excessive Blood

STOP XL

Tranexamic Acid 5ml Inj

Antifibrinolytic action for superior hemostasis

Tranexamic Acid

- Inhibits plasminogen activation
- Prevents fibrin degradation
- Stabilizes blood clot formation

Indication

Surgical bleeding (dental, cardiac,

orthopedic, gynecologic)

Trauma and accident-related hemorrhage

Menorrhagia and postpartum hemorrhage

Hematuria and epistaxis

Trusted antifibrinolytic for effective bleeding control

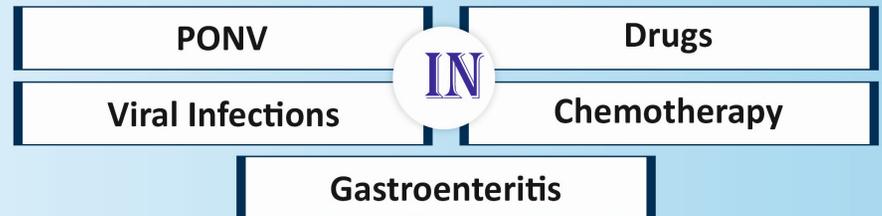

Emetrix-4

Ondansertone 4mg Tablets

- Reduces vomiting and facilitates oral rehydration in gastro-enteritis.
- Effective in controlling both post-operative & post-radiation nausea & vomiting.
- Superior control of nausea & vomiting compared to Metoclopramide (97% vs 45%).
- Non-sedating with proven 24-hours efficacy.
- Safe and effective when used in children.
- Selective 5-HT₃ receptor antagonist.

Indicated In.....

Vertigo Relief

Balance Disorders

Ménière's Disease

Tinnitus Control

Postural Instability

GHURMI
Restores Balance...Improves Quality of Life

GHURMI

Betahistine 16 mg Tablets

**Effectively relieves Vertigo &
Associated symptoms**

- + Acts as an H1 receptor agonist & H3 receptor antagonist.
- + Increases blood flow in the inner ear (stria vascularis).
- + Relieves labyrinthine hydrops.
- + Facilitates central adaptation after vestibular damage.

**Unique H1 Agonist & H3 Antagonist
Action**
